Astronomy Resources

Learn more about space and how to observe it through these online and in person resources

American Astronomical Society

Astronomy news and education.

Also publishes *Sky & Telescope*

aas.org

skyandtelescope.org

Amateur Telescope Makers of Boston

Club devoted to telescope making as well as observing space; website has observation tips and conditions

atmob.org

Christa McAuliffe Center @ Framingham State

Science museum that is primarily for K-12 group trips, but also hosts community stargazing events

cm-center.org

Dark Sky Map

Find observatories and stargazing locations, as well as see how much light pollution is in your area

darksitemap.com

Interactive Star Chart

Enter your location and generate an interactive view of the night sky in your area to help you stargaze

[skyandtelescope.org/](http://skyandtelescope.org/interactive-sky-chart)

interactive-sky-chart

McAuliffe-Shepard Discovery Center

Science museum in Concord, NH with a planetarium and observatory

starhop.com

MIT Haystack Observatory

Observatory, and home to the Haystack Radio Telescope, in Westford that does biannual open houses

[haystack.mit.edu/about/](http://haystack.mit.edu/about/open-house-events)

open-house-events

MIT Wallace Astrophysical Observatory

Observatory in Westford that does occasional public tours

web.mit.edu/wallace

Museum of Science, Boston

Learn about space on their website or by visiting the Charles Hayden Planetarium

mos.org/discover/topics/space

mos.org/visit/planetarium

NASA

Get official information about upcoming astronomical events and space missions

nasa.gov

NASA: Astronomy Picture of the Day

Every day since 1995, NASA has posted an astronomy photo online

apod.nasa.gov/apod/astropix.html

NASA: How to Find Good Places to Stargaze

Tips on stargazing from NASA
